

Connections

The diagram shows a vertical panel with 12 pins. The pins are numbered 1 through 12 on the right side. The connections are as follows:

- Pins 1, 4, 5, 7, 8, 9, 10, and 11 are connected to a common ground.
- Pins 2, 6, and 12 are connected to a common 0V supply.
- Pins 3 and 1 are connected to a common supply.

A technical drawing of a vertical rectangular object, likely a component of a machine. The object is dark gray with a lighter gray textured base. On the right side, there are two curved protrusions, one above the other, which appear to be part of a larger assembly. The drawing is oriented vertically on the page.
